Noelle,

I'm planning to write about the mitigation fund that's part of the Atlantic Coast Pipeline approval.

Would you be able to help out with questions?

1. Why is the total \$57.8 million? The specificity -- down to a decimal point -- suggests the total is based on a formula or calculation, not a rounded figure.
2. Half the money is set aside for mitigation. If the ACP doesn't cause any damage, would the mitigation money go unspent. Or will it be spent on the assumption that the project will necessarily have some impacts?
3. Can you give examples of how the mitigation, economic development and renewables funds could or might be spent?
4. The state has had litigation in the past over the status of such discretionary funds with regard to Article IX, Sec. 7 of the NC Constitution, which requires penalties/fines/forfeitures to be used exclusively for public schools. The courts have declared such payments to be penalties even if they were not designated as such by the parties themselves. There's a pending case now brought by Civitas Institute against Roy Cooper (and now Josh Stein) over the 2000 Smithfield Agreement (case was dismissed by Wake Co Superior Court Judge Paul Ridgeway in Oct. 2017, and has been subsequently appealed). Can you tell me how the ACP mitigation fund is different from other environmental funds, most of which have been declared unconstitutional? Are you expecting this fund to be litigated as well?

Let me know if you can assist today -- I'm on daily deadline.

I look forward to hearing from you.

OFFICE OF GOVERNOR ROY COOPER

FOR IMMEDIATE RELEASE
December 12, 2017
Contact: Ford Porter
Phone: [919-814-2100](tel:919-814-2100)
Email: govpress@nc.gov

Governor Cooper requests extension of Open Enrollment period for [HealthCare.gov](https://www.healthcare.gov)

Current Deadline for Signup is Dec. 15

North Carolinians can visit [HealthCare.gov](https://www.healthcare.gov) or call [1-800-318-2596](tel:1-800-318-2596) to sign up

RALEIGH: Governor Cooper sent a letter to U.S. Department of Health and Human Services (HHS) Acting Secretary Eric Hargan asking him to extend the Open Enrollment period for [HealthCare.gov](https://www.healthcare.gov) for an additional week, through December 22, 2017.

The Open Enrollment period this year runs from November 1 to December 15, six weeks shorter than last year. North Carolina has the third-highest enrollment on the federal marketplace out of all states, so it is heavily impacted by the shortened Open Enrollment period. Over 500,000 North Carolinians signed up for 2017 insurance through [HealthCare.gov](https://www.healthcare.gov) last year. As of December 2, only 209,050 North Carolinians have signed up for 2018 insurance through [HealthCare.gov](https://www.healthcare.gov).

North Carolina has an uninsured rate of about 13%, which is higher than the national average of about 9%. Low enrollment due to the shorted Open Enrollment period could leave thousands of North Carolinians without health insurance for themselves and their families.

"It's important that all uninsured individuals and families in North Carolina to take advantage of the opportunity to sign up for health insurance through HealthCare.gov by the December 15th deadline," said Governor Roy Cooper. "However, today, I've urged the federal government to allow a one-week extension of Open Enrollment to allow families the time they need to choose the plan that's right for them."

A full copy of the letter can be found [HERE](#).

Open Enrollment has been extended twice in past years to give families more time to enroll in coverage. During past extensions, there were between 400,000-450,000 additional enrollments, or a 6-8% increase in total enrollment and 10-11% increase in new enrollments in just two business days.

Without the extension, the open enrollment period for HealthCare.gov health insurance plans for 2018 closes on December 15, 2017. These plans cover doctors' visits, emergency room visits, hospital stays, maternity care, mental health care, prescription drugs, rehabilitative services, labs, preventive care and pediatric care. Last year, 90% of North Carolinians who signed up for a plan during open enrollment received financial help to assist with the cost of coverage. This assistance is still available and most people can receive coverage for less than \$75 per month.
